

HALFDAN RYDBECK

Profile

Expert in applied bioinformatics with 8+ years of experience in providing transparent and reproducible solutions for diverse areas of biological and medical research. Deep knowledge of underlying issues in need of bioinformatics support. Experience includes genetic epidemiology of rare diseases, integrative omics analysis of data from cancer tissue and immune cells, microarray analysis, preprocessing to final analysis of NGS output, sequence alignment and assembly working with non-human genomes from bacteria to fish species and wolf in evolutionary research and finally integrative analysis of proteomics, clinical and brain imaging data. Experience running jobs with queuing systems on high performance clusters. Focused on keeping at the forefront of the latest within computational omics analysis. I seek to understand the healthcare environment and external trends. Emotional intelligence, strong communication, great teammate. My colleagues say about me that I am hardworking, joyful and problemsolving.

Objective

To further develop my skills in developing reproducible bioinformatics pipelines and contribute to the efforts of the pharmaceutical industry towards the curation and treatment of disease. To further develop my knowledge of and skills in applying AI and ML in pipelines. To share attained knowledge.

Relevant competences

- transcriptomics and proteomics
- Integrative cancer omics analysis
- NGS preprocessing and analysis
- shell, (Python), R, git, Github, Nexflow, Docker
- scientific communication and writing
- project management

RESEARCH EXPERIENCE

2022
|
2020

Researcher bioinformatics

Sahlgrenska ac., Univeristy of Gothenburg

📍 Göteborg, Sweden

- Developed a [pipeline](#) of rscripts to perform pathway and correlation network analysis of cord blood plasma proteomics data.
- Worked with Rstudio and the R package collections Bioconductor and Tidyverse. Reports where generated with R notebooks and the R package Bookdown. Github and
- GitKraken is used for code version control. Recently applied R packages are DEqMS for differential expression analysis of mass spectrometry data, WGCNA for proteins correlation analysis and ReactomeGSA for pathway analysis

2017
|
2014

Senior engineer bioinformatics

Norwegian Sequencing Center

University of Oslo, Norway

- Set up server infrastructure for NGS data handling. Managed NGS file servers, user access and data delivery.
- Examples of downstream analysis: Blasted an exon sequence against multiple assembled fish genomes to look for systematic loss in phylogeny. Analyzed bacterial methylomes, sequenced with Pacbio in respect to virulens.
- System setup, user management, data preprocessing, delivery and down stream analysis of Illumina and Pacbio sequence data at the Norwegian DNA sequencing center. Workflow automation with cron and make

2008
|
2007

Principal engineer

Bioinformatics core facility

Rikshospitalet HF, Norway

- Microarray gene expression analysis
- Developing network-based methods to investigate and visualize clinically relevant patterns in data.

2007
|
2006

Research assistant

Human Genetics division

Children's Hospital of Philadelphia, USA

- Bash and scripting for data wrangling and testing Solar, Plink, TDT, Merlin, STATA, SAS, R
- Work primarily done in R Shiny and Javascript (node and d3js).

2005
|
2004

Senior research assistant

Dept. of genetic epidemiology

Nemours Hospital for Children, USA

- Used software for genetic linkage and association studies of diseases/syndroms Velocardiofacial Syndrome, ADHD, Neuroblastoma, Osteoporosis, Cornelia de Lange's syndrome and Myopia · Solar, Plink, TDT, Merlin, STATA, SAS, R

2004
|
2002

Database coordinator

Human Genetics division

Children's Hospital of Philadelphia, USA

- Managed a database for SNP information Progeny2000

TEACHING EXPERIENCE

2018
|
2017

R for reproducible scientific programming

Software carpentry

Oslo Norway

2018
|
2017

Version controlling with git and github

Software carpentry

Oslo Norway

2018
|
2017

Unix

Software carpentry

Oslo Norway

Calmness and excitement are essential prerequisites for good teaching and learning

EDUCATION

2012
|
2007

PhD bioinformatics

Medical faculty, University of Oslo

📍 Oslo, Norway

- PhD project with thesis title: Integrative epigenome analysis¹. Scripts developed in R and [The Genomic Hyperbrowser](#) was used to study the dependencies and select genes, based on genomic, epigenomic and transcriptomic alterations in samples from osteosarcoma and immune cells. The gene expression, promoter methylation and DNA copy number data were acquired by oligonucleotide microarray technology, and the histone modification data was acquired by technology based on chromatin immune precipitation and next generation sequencing, ChIP-seq.
- Developed an R package for clustering of genomic tracks.

2001
|
2000

Master of Science in Bioinformatics

Chalmers University of Technology

📍 Gothenburg, Sweden

1999
|
1993

Master of Science in Molecular biology

University of Gothenburg /Uppsala

📍 Göteborg/Uppsala, Sweden

Halfdan did a "very good job as a senior engineer at NSC and is a responsible and pleasant person to work with" *Professor Kjetil Sigurd Jakobssen, founder of Norwegian DNA Sequencing Center*

SELECTED PUBLICATIONS, POSTERS, AND TALKS

2022

The proteome signature of cord blood plasma with high hematopoietic stem and progenitor cell count²

Stem Cell Research

- Authored with Anders K. Nilsson, Annika Thorsell, Sofia Frändberg, Helena Barreto Henriksson, Camilla Hesse, Gunnel Hellgren, Pia Lundgren, Ann Hellström

2015

ClusTrack: Feature Extraction and Similarity Measures for Clustering of Genome-Wide Data Sets³

Plos One

- Authored with Geir Kjetil Sandve, Egil Ferkingstad and Eivind Hovig

2010

The Genomic HyperBrowser: inferential genomics at the sequence level⁴

Genome biology

- Authored with Geir K Sandve, Sveinung Gundersen, Ingrid K Glad, Lars Holden, Marit Holden, Knut Liestøl, Trevor Clancy, Egil Ferkingstad, Morten Johansen, Vegard Nygaard, Eivind Tøstesen, Arnaldo Frigessi & Eivind Hovig

https://www.researchgate.net/profile/Halfdan_Rydbeck; ORCID identification number: 0000-0003-1606-38420000

SPECIAL COMPETENCES

- **Preprocessing of NGS output**
FASTQC, etc
- **Downstream analysis of NGS output**
Gene centric(DEG), GO and pathway centric, correlation module centric
- **Programming**
R, shell, Python
- **Version control**
git, Github

References are available on request

LANGUAGES

- **Swedish (native)**
- **English (native)**
- **Norwegian (good)**

CONFERENCE PARTICIPATION

- **Pangenomes Evolution and Computation⁵**

PEDAGOGIC EXPERIENCE

- **Tutoring PhD students**
